PROFESSIONAL SUMMARY

Creative 3rd-year Computer Science student blending a strong foundation in visual design with modern Frontend Web Development. Proficient in building interactive and responsive web pages using HTML, CSS, and JavaScript. Leveraging a unique background in digital animation and content creation to bridge the gap between clean, efficient code and intuitive, engaging user interfaces.

EDUCATION

American College of Technology
Bachelor of Science in Computer Science

Addis Ababa, Ethiopia
Expected Graduation: 2027

TECHNICAL SKILLS

Frontend Technologies: HTML5, CSS3, JavaScript (Vanilla)
Backend & Databases: Node.js, PHP, MySQL, SQL
Programming Languages: Java, C++, Python
Developer Tools: Git, GitHub, VS Code, Vercel
Design & UI/UX: Adobe Photoshop, Adobe Animate, FlipaClip, Wireframing

SOFTWARE PROJECTS

Binder App | Frontend Developer

Stack: HTML, CSS, JavaScript

- Developed a personal digital hub featuring a functional journaling system, a secure photo storage gallery, and integrated interactive mini-games.
- Built dynamic, responsive user interfaces using vanilla JavaScript to ensure seamless navigation, state management, and high user engagement.
- Implemented clean UI/UX design principles to make the application visually appealing and highly intuitive for end-users.

Quick Hustle | Full-Stack Developer

Stack: HTML, CSS, SQL

- Designed and built the user interface for a local job-finding platform connecting users with part-time gigs and quick local employment opportunities.
- Created accessible, structured web pages using modern HTML/CSS practices while simultaneously planning the underlying SQL database schema.

RPG Game | Java Developer

Stack: Java, SQL

- Programmed a feature-rich role-playing game incorporating exploration mechanics, puzzle-solving logic, turn-based combat, and a treasure-hunting system.
- Managed game state and player data persistence by integrating a relational SQL database with the core Java backend.

E-Phonebook | Java Developer

Stack: Java, SQL

- Engineered a corporate directory application for efficiently managing, searching, and updating employee contact information.
- Implemented CRUD operations using Java and SQL to maintain a robust, scalable backend architecture for data retrieval.

TRANSFERABLE SKILLS & CREATIVE EXPERIENCE

Digital Animator & Content Creator | YouTube

Freelance

- Visual Communication:** Translated complex ideas into visually appealing animations, honing an eye for design that directly translates to accessible, engaging web layouts.
- Project Management:** Handled the end-to-end lifecycle for digital content, from conceptual storyboarding and asset creation in Adobe Photoshop to final video production.
- Detail Oriented:** Maintained meticulous attention to color grading, transitions, and pacing—skills highly applicable to crafting smooth CSS animations and fluid frontend user flows.
